Two pairs of 3D glasses included in box

## AQUOS®

Legendary AQUOS picture quality is now available in 4K (3840x2160) resolution. Introducing the 70" Class (69.5" Diagonal) AQUOS® 4K Ultra HD LED TV. With four times the pixel resolution of HD and Sharp's proprietary Revelation™ 4K Upscaler, it makes everything you watch better. The picture quality experts at THX® agree: the image quality is so outstanding that it earned the first THX 4K Certification. One look and you'll understand why the AQUOS 4K Ultra HD LED TV isn't just a 4K TV; it's certified amazing.

### Revelation™ 4K Upscaler

Instantly analyzes and intelligently enhances the content to create a 4K (3840 x 2160) image. Movies, TV shows and video games are sharper and more vivid, unlocking scores of hidden details.

In earning the first THX 4K certification, the AQUOS® 4K Ultra HD LED TV passed over 400 rigorous tests, meeting the highest standards in picture performance.

### Four Times the Pixel Resolution

Everything you watch on the AQUOS 4K Ultra HD LED TV is sharper, more realistic, more stunning.

## LC-70UD1U

### 70" CLASS (69.5" DIAGONAL) LED TV

## SHARP TECHNOLOGY OVERVIEW

### PICTURE QUALITY

---

#### 4K ULTRA HD LED TV DISPLAY

Sharp® took its already stunning AQUOS® HD picture technology and gave it four times the pixel resolution for even more clarity, depth, and detail. The AQUOS® 4K Ultra HD LED TV enhances everything you watch today with impeccably crisp detail and image clarity never before seen in a 4K (3840 x 2160) display.

#### REVELATION™ 4K UPSCALER

Upscaling is the two-step process Sharp's 4K Ultra HD LED TV uses to receive and evaluate a lower resolution image signal (i.e., 1080p) and create new information to produce a more detailed 4K (3840 x 2160) image.

First, a dual-core processor fine-tunes the original signal for optimal picture quality. Next, Sharp's proprietary Revelation™ 4K Upscaler analyzes and enhances the content to create a 4K (3840 x 2160) image. Movies, TV shows, video games, and even YouTube videos are analyzed and digitally enriched, unlocking scores of hidden details.

#### THX 4K CERTIFIED

The THX® 4K Certification program was created to ensure that the display reproduces content as the director intended. In earning the first THX 4K certification, the AQUOS® 4K Ultra HD LED TV passed over 400 rigorous tests, ensuring that it meets the highest standards in three key picture quality categories: screen uniformity, color performance, and motion processing.

#### AQUOMOTION™ 240

See sharper, more electrifying action. The native 120Hz panel plus AquoMotion™ 240 backlight scanning technology multiplies the effective refresh rate to deliver images that are crystal clear, even during fast-motion scenes.

### SMART

---

#### SMARTCENTRAL™

The AQUOS® 4K Ultra HD LED TV lets you connect to your favorite content instantly with Sharp®'s easy-to-use SmartCentral™ Smart TV Platform. Working through built-in Wi-Fi, SmartCentral™ streams movies and shows from Netflix, Hulu Plus, and VUDU®, videos from YouTube, and music through Pandora® and Rhapsody®. Plus, built-in social apps like Facebook and Skype™\* mean you connect with friends on your large-screen 4K Ultra HD LED TV for amazingly realistic interactions.

Surf the web with Sharp's built-in flash-enabled web browser. Or watch TV and browse the web at the same time with SmartCentral's exclusive split-screen experience.

#### DUAL-CORE PROCESSOR

Dual-core processing means faster load times for apps and the web browser. So you spend less time waiting and more time enjoying.

#### SPLIT-SCREEN WEB + TV

Sharp's split-screen experience lets you surf the web while you watch TV, so you never have to choose between your favorite show and your favorite site. Technology that gives you the best of television and the best of the web – that's truly the best experience.

#### REMOTE CONTROL AND BEAM APPS

Your remote's never out of reach with Sharp's app that lets you change the channel right from your iOS® or Android™ smartphone or tablet. Beam turns your smartphone into a fully functional content sharer that's simple and fun to use. Flick photos, videos, movies, and more from your smartphone or tablet to your big screen.

#### BUILT-IN WI-FI

Every AQUOS® Smart TV has built-in Wi-Fi technology\* that allows you to connect without the hassle of finding a cable.

(\*Additional fees and/or subscriptions may apply)

#### MHL®

An MHL® connection turns a small-screen phone into a big-screen experience. MHL delivers HD uncompressed video with up to eight channels of digital audio. Since MHL also charges the mobile device, you can power up at the same time you're connected. You can also control MHL-enabled mobile devices using your existing TV remotes to easily access and select content.

### DESIGN

---

#### A HIGHER STANDARD OF DESIGN

The AQUOS® 4K Ultra HD LED TV's sleek frame, with metallic black finish and arc stand, features an ingenious speakers-in-front design. You enjoy robust sound with a narrower footprint.

#### WALLPAPER MODE

Turn it off, and the TV still looks beautiful. Wallpaper Mode works on extremely low power to turn the AQUOS® 4K Ultra HD LED TV into an elegant 4K (3840 x 2160) picture frame. View pre-installed artwork or your own photos with museum-like appearance and stunning detail.

### SOUND

---

#### DUOBASS AUDIO SYSTEM

Your ears will love the AQUOS® 4K Ultra HD LED TV, too. Its 6-speaker sound system—including separate mid-range and tweeters—along with Sharp®'s proprietary DuoBass dual subwoofer system delivers a powerful 35 watts with clear voices, broad dynamic range, and deep bass.

### CONNECTIONS

---

#### 4K PHOTO PLAYBACK

4K (3840 x 2160) Photo Playback via a built-in SD card reader and two USB ports means that for the first time, you can see the full resolution and detail captured in your 8MP photos. With four times the pixel resolution the AQUOS® 4K Ultra HD LED TV lets you see more details than ever before.

#### 4 HDMI WITH NATIVE 4K INPUT

Connect all your favorite gear—Blu-ray players, gaming consoles, streaming players, and more—to amazing 4K picture quality via four HDMI inputs that accept native 4K (3840 x 2160) signals. With all these connection options, your 4K Ultra HD LED TV experience expands along with tomorrow's sources.

## SHARP TECHNOLOGY OVERVIEW (CONT.)

### 3D

---

#### ACTIVE 3D + 2 PAIRS OF 3D GLASSES

Sharp®'s Active 3D technology brings you twice the detail of passive 3D so every scene comes alive for an intensely immersive experience. Two pairs of Bluetooth 3D glasses are included in the box.

#### 2D/3D SWITCH

With Sharp 3D glasses, you can switch from 3D to 2D anytime you want—without affecting anyone else in the room. With Sharp 3D, everyone gets what they like.
